Accu-Tab is pleased to announce the appointment of BAU/HOPKINS as our Distributor servicing the New England markets.

Many of you may already know BAU/HOPKINS and are aware of the technical expertise and reliable customer service.

Accu-Tab® tablet chlorination system offers our customers simple and effective chlorination for a wide range of applications from the aquatics industry to food processing and drinking water to wastewater. Simply put -the AccuTab system is the solution for all your chlorination needs.

The system's advanced technology combines specially-engineered Accu-Tab chlorinators with proprietary Accu-Tab three-inch calcium hypochlorite tablets to form a complete, NSF-certified system. With many feeder models available and the flexibility to meet requirements for size and chlorine demand, the reliable and accurate chlorine tablet and feeder system is installed in facilities worldwide.

Contact Information

Should you have any questions or require additional information on any of our products or services please contact BAU/HOPKINS at the phone numbers listed.

BAU/HOPKINS covers all of the New England States.
