New England States*

Fluid Dynamics Selects BAU/HOPKINS

Effective January 2012

Fluid Dynamics is pleased to announce the appointment of BAU/HOPKINS as our Distributor servicing the New England Markets.

Many of you may already know BAU/HOPKINS and are aware of the technical expertise and reliable customer service.

Fluid Dynamics

A premier manufacturer of polymer blending technology.

The dynaBLEND™ began in a way many products do, a few creative people with some ingenious ideas. The result was a revolutionary new non-mechanical polymer blending system. Following extensive research and collaboration with leading polymer scientists, Fluid Dynamics refined and patented the dynaBLEND™ polymer blending technology in 1985. Over 20 years and thousands of installations later, Fluid Dynamics stands as one of the premier polymer equipment companies in the world and is staffed with some of the leading polymer equipment engineers in the US. Our technical staff is specifically dedicated to the development and application of polymer equipment. Though attempts have been made to imitate the dynaBLEND™ system. Initial skepticism has turned into praise from all aspects of the industry, from engineers to end users.
